

IGI Waxes for Container Candles- Premium Performance Blends

IGI offers its EZ-Pour[®] line, which includes PARAFFLEX[®] and ASTORLITE[®] products for the manufacture of high-quality container candles. Benefits from this product line include:

- Optimized for particular types of jar candles
- Designed to be used without additives (w/ exception of UV inhibitors)
- High quality and consistency offered in three categories: Value, Performance, and Premium Performance

Premium Performance Products

- Utilizes best available base materials and additives to make waxes suitable for “high-end” candles
- High fragrance loads possible with excellent cold/hot throw properties
- Excellent burn properties when used with proper wick systems
