

IGI Waxes for Pillar, Votive, and Molded Candles-Performance Blends

IGI offers its EZ-FORM® line, which includes PARAFFLEX® and ASTORLITE® products for the manufacture of high-quality pillar, votive, and other molded type candles. Benefits from this product line include:

- Optimized for specific types of candles
- Pre-blended: no additives or blending required (w/ exception of UV inhibitors)
- For mottling and palm waxes, QC tested to ensure proper finish
- High consistency offered in two categories: Performance and Premium Performance

Performance Products

- Use of additives to enhance performance (except for mottling and palm waxes)
- Able to accommodate higher fragrance loads
- Excellent burn (with proper wick system) and mold release properties

IGI Product Code	Base Wax System	Application/ Appearance	Color Retention	Fragrance Load / Throw Cold (CT) / Hot (HT)	Congeval Point (ASTM D938)	Needle Pen (ASTM D1321)	Color (ASTM D6045)
